In a recent article in the Youths Companion, on "How to cure a cold," the writer advises a hot lemonade to be taken at bed time. It is a dangerous treatment, especially during the severe cold weather of the winter months, as it opens the pores of the skin and leaves the system in such condition that another and much more severe cold is almost certain to be contracted. Many years constant use and the experience of thousands of person of all ages, has fully demonstrated that there is nothing better for a severe cold than Chamberlain's Cough Remedy. It acts in perfect harmony with nature, relieves the lungs, liquefies the tough tenacious mucus, making it easier to expectorate, and restores the system to a strong and healthy condition. Fifty cent bottles for sale by G. C. Thaxter.

## NO MORE SNOWSHEDS.

The Rotary Snow Plow is a Complete Success.

The Truckee Republican contains the following: To see exactly what the rotary snow shovel was capable of doing has been the desire of the railroad officials for some time past. The work of the new plow at Cascade, on the main line, while very successful, was not considered a fair test of capabilities, as there the snow was not allowed to accumulate over two feet at any time. It was desired to see what it could do in a really deep snow.

Last Monday a severe test was given in the presence of the following officials: Colonel Fred Crocker, Director Alexander, Superintendent Filmore, Division Superintendent Wright and assistant Burckhalter. The party came up, the Summit and then came down on the plow to Lakeview siding, a few miles east of the Summit. Here the side track for a quarter of a mile is outside of the sheds and all the snow of the season had piled up. On the upper side of the track the snow was sixteen feet four inches deep and on the lower side it was ten feet four inches.

The plow sailed into this mass, which was packed quite hard, and in forty minutes it was cleared in fine style. The rotating fans cut into the snow at a great rate and forced it out of a pipe in a solid stream, throwing it down the hill to a distance of about two hundred feet. It was pronounced a great success, and it is probable that a number of the shovels will be ordered at once. In fact, one is now nearly completed, which will be a little larger and heavier than the one now in use, and will have several improvements. As soon as this arrives it will be stationed at Cascade and the one now in use will be sent out on the Salt Lake division.

By next winter there will be half a dozen of the machines stationed at various places in the mountains. This means that no new snowsheds will be built, but that as fast as the present structures decay they will be torn down. When the nearly forty miles between Truckee and the Blue Canyon are out of the way the Central Pacific route can be justly said to be the scenic route of America. Beautiful views of mountains and valleys, lakes and streams will then be unfolded to the eyes of travelers, which are now obstructed.

## The Colored Case.

Mrs. Banning, the colored lady who was arrested recently for a pugilistic assault on Miss Barnett, was to have been tried yesterday, but the prosecutrix wishing to secure the attendance of more witnesses asked for a postponement until 10 o'clock this morning, as she wishes to subpoena a few spectators who were passing the resort at the time of the unpleasantness. Mrs. Banning has secured barristers Summerfield and Mighels to defend her interests in the court and demanded a jury trial. The case will positively come off at 10 o'clock this morning, unless the defense demands a change of venue.

## Harrison and Reed Quarrel.

WASHINGTON, Dec. 19.—A rumor from a reliable source is current about the Capitol to the effect that there has been a quarrel between the President and Speaker Reed. Reed, it is said, wanted to secure the appointment of some personal friend of his to a federal office in his (Reed's) own town. He called upon the President and gave him a slip of paper bearing the name of the candidate, at the same time recommending the man very highly. The President took the slip, remarking:

"Very well; I will investigate the matter."

"But I recommend this man," Reed said, growing very red in the face.

"Very good," Harrison said, still holding the slip of paper in his hand. "I told you I would investigate the matter."

"No you won't," said Reed, jerking the slip of paper from the President's hand. Then the Speaker turned and left the room without another word.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness.
